The function keys are invested (such as the ones we have seen on the portion computer mini 5101 of HP) and this allows you to change the brightness, volume and other tasks without first having to press the fn boton. It is not exhausting to write it for long time of time, but the keys make a deaf noise when you hit them. There is a numerical pad on the right side of the keyboard, and although it is a small crushing, it is ostile in case you use the calculator frequently. If you are accustomed to press F5 to update your web browser, you must also take into account to hold FN. However, it is about the performance of the grass for HD video processing and may even execute some older games. games.
